THE importance of purity in Photographic Chemicals must suggest itself to all. Our imports have for the past half century been acknowledged as PRACTICALLY PURE, THOROUGHLY RELIABLE, and of UNIFORM STRENGTH AND CHARACTER. Commercial samples (as met with in Indian bazaars), though perhaps unadulterated in the strict sense of the term, are not always to be depended upon, as they are liable to be contaminated with other matter which will unfavourably affect results when operating.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, OCT. 27.

THE only movements in Securities in London as advised by Reuter's telegram of yesterday are an advance of ¼ in Consols to 99⅛, and a decline of ¼ in the 3½ per cent. Indian Loan to 100½. French Rentes and Rupee Paper are unchanged.

Metals are all without change, and in the General Produce Markets, Coffee and Cocoanut-Oil are as last quoted. Seeds are unmoved, and Wheat partially 3d. to 6d. per quarter lower in London.

Piece-goods in Manchester are firm, and the Liverpool Cotton market yesterday closed firm, the sales being estimated at 18,000 bales, of which 1,000 were Surats. Spot prices show no alteration, but Americans in Liverpool for future delivery exhibit a decline of 1-16d. In New York ready Mid-Uplands are still quoted at 11⅛ cents., but January shipment is 4 points lower at 11·75 cents. per lb. The receipts at the U. S. Ports to date give the following comparisons :—

	1881.	1880.	1879.
Wednesday's Receipts	33,000	35,000	27,000
Five days' do.	1,33,000	1,56,000	1,56,000
Total since 1st Sept.	10,92,000	12,88,000	11,63,000

The Washington Agricultural Bureau report on the condition of the Cotton Crop, which ought to have been here on the 16th, has been issued by Reuter to-day. The average figure of condition is put at 68 per cent., a decline since September of 72 per cent. This is the lowest estimate which the Bureau has issued for the past six years, and if accepted in its entirety, the ultimate out-turn of the present crop would have to be put at even lower than the smallest figures suggested. As the report, however, must have been known both in Liverpool and New York for the past twelve days without inducing any special excitement, it is perfectly clear that no very great amount of faith is placed on it by the leading operators.

The biddings for Council Drafts in London yesterday resulted very closely on what people here anticipated. The minimum was fixed at 1s. 7⅞d., but at that figure the drafts were tendered for five times over, showing very clearly that had 1s. 7-15-16d. been fixed a large proportion would have been taken up. However, that might be, the fact that 1s. 7⅞d. was the figure, coupled with the announcements of an increase in next week's drawings from 35 to 40 lacs, and advice of shipments of Silver to the extent of £70,000 and Gold to £20,000 for this side, have together been sufficient to induce a slightly easier feeling in STERLING EXCHANGE to-day, and rates have been 1-32d. lower all round, the following being closing quotations :—

Bank Bills on demand	1s. 7 29-32d.	per rupee.
Do. telegraphic	1s. 7¾	,,
Do. 3 months' sight....	1s. 8 3-32d.	,,
Credits, 3 ,, ,, ...	1s. 8 7-32d.	,,
Documents, 3 ,, ,, ...	1s. 8¼	,,
Francs 3 ,, ,, ...	2f. 14⅛c.	,,

At this reduced level the market, though quiet, is by no means weak. There are certainly comparatively few bills offering at the moment ; but Money is the reverse of plentiful, and every day is carrying us nearer to a period when Private Paper will become more and more plentiful. The increase in the Council Drawings will, no doubt, exercise a repressive effect for a time, but after all 5 lacs a week is comparatively nothing, and if the market had any strength before, this will not be sufficient to counteract it.

On Calcutta we quote Demand Drafts at 1-16 per cent. discount, 60 days' sight at 1 per cent. discount.

GOVERNMENT PAPER continues to show a weakening tendency. Fours are now quoted at Rs. 100 9-16 to ⅝, Fours-and-a-half at Rs. 109½, the latter nominal.

The SHARE MARKET has ruled quiet with few movements of any importance. In Banks there is no change, and the same may be said of Land Companies. Press Companies are quiet but unchanged. In Spinning and Weaving Mill Shares a pretty general decline of Rs. 5 per share must be quoted.

COTTON to-day has been very dull, and we have not heard of a single transaction for export of any importance. For New Crop buyers have reduced their Hides by Rs. 2 to Rs. 3 per candy, but sellers decline to follow, and both sides to a great extent may be said to be playing a waiting game. On the one hand the large business doing in Liverpool, and the short receipts at the American ports constitute features of considerable strength, but against this, we have the fact that prices in Liverpool do not improve, and now almost a certainty that we shall have a very large crop here. To use a common phrase, at the moment it seems a toss up whether sellers or buyers are likely to have the best of it at present prices. Quotations for new crops are :—

Good Oomra, March	Rs. 203	per candy.
,, Broach, ,,	,, 236	,,
,, Dholera, April	,, 202	,,

SEEDS and WHEAT are all unchanged as regards price. Of the latter receipts are very heavy, and sellers are, if anything, easier to deal with.

FREIGHTS, although quiet, are very steady. For Liverpool, October shipment is quoted at 47s. 6d., November 43s. 9d., December 40s. For the latter month and January loading steamers are offering pretty freely, and we hear of two or three charters yesterday and to-day on the basiss of 40s. for United Kingdom with ordinary concessions.

PIECE-GOODS are quiet. Notwithstanding the firmness at home, dealers cannot overcome the incubus of existing heavy stocks and large supplies to arrive, and in consequence are slow to enter on future shipment operations.

COALS are firm with practically no sellers to arrive.

ADVICE TO MOTHERS !—Are you broken in your rest by a sick child suffering with the pain of cutting teeth ? Go at once to a chemist and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor sufferer immediately. It is perfectly harmless and pleasant to the taste, it produces natural quiet sleep, by relieving the child from pain, and the little cherub awakes "as bright as a button." It soothes the child, it softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for dysentery and diarrhœa, whether arising from teething or other causes. Mrs. Winslow's Soothing Syrup is sold by Medicine dealers everywhere at 1s. 1½d. per bottle. Wholesale by the Anglo-American Drug Company, Limited, 33, Farringdon Road, London.

NOTICE TO CORRESPONDENT.

"T. O'B."—On such very delicate matters of a private domestic character we cannot venture to pronounce any opinion.

The Bombay Gazette

FRIDAY, OCTOBER 28, 1881.

SIR JAMES FERGUSSON'S contemplated tour next month promises to be one of the most useful undertaken for many years by any Governor of this Presidency. His Excellency proposes, after leaving Poona, to make his way towards Tasgaum in the Satara collectorate, thence to Miraj, and so on to Gokak, where the celebrated falls will well repay him a little extra fatigue ; he will then strike to the north-east, *viâ* Jamkhandi, to Beejapoor ; and thence, we believe, will travel by Pandurpur back to the G. I. P. R. line. He will thus pass over and see for himself all that tract of country through which, by one route or another, the proposed railway, or chord line as it may be termed, will pass from Poona, to meet hereafter the Bellary, Gadag, Hubli, and Marmagao line to the south, opening up the rich valley of the Kristna. It would be futile as yet to discuss the merits of the several practicable routes that the engineers may decide upon, for the preliminary surveys are scarcely completed. It is certain, however, that the route by Waee, Gatam, and Kolhapur has been abandoned, to the great sorrow of pilgrims, European and native, to Mahableshwur and Waee, for this route, besides encountering chain after chain of steep hills and spurs from the Syadris, also crosses all the natural drainage of the country. A railway over such a country would be most costly, while it would have to compete for traffic, and could not do so successfully, with the shorter and excellent cart-roads over the ghauts to the sea. It is not our purpose, however, at present to enter into any premature discussion of this railway question, which may or may not be settled in the next two years, and which in any case cannot be carried to completion for many years more. It is more to the point to see what has been done towards the preparation for the railways already sanctioned in the Southern Mahratta Country of the vast and hitherto neglected tract through which they will pass. Within three to four years, we shall have the East Deccan Railway leaving Hutgi on the G. I. P. Railway just above Sholapur and stretching southward, through the Kaladgi district, *viâ* Beejapur and Bagalkote, to Gadag, where it will run almost at right angles into the Coast line from Marmagao, Hubli, Gadag, and Bellary. These were the districts which suffered most in the famine, for the simple reason that it was impossible to convey the grain lying at the railway stations or piled on the bunders at the coast to the starving multitudes along our eastern frontier. The Kaladgi district alone lost a quarter of a million souls, and Belgaum and Eastern Dharwar together cannot have lost less than a quarter of a million more. These two new lines will render famine well nigh impossible, and their effect will, in the words of a well-known official, "resemble a transformation scene !" It is difficult to overestimate their value in developing the material resources of the country. A few years will doubtless see cotton mills flourishing at Gadag and Hubli in the centre of the great cotton plain, and European agencies everywhere. Wheat from the valley of the Rivotna and the Don, jagri, and seeds of all kinds will find their way by railway either to the coast or to the G. I. P. R. ; the certainty of good markets will stimulate cultivation ; much land now waste will be brought under the plough, and the condition of the ryot generally must be immensely improved. But all these benefits will be delayed unless, when the railways are ready, country roads or feeders are also ready ; and we regret to learn that this is very far from being the case at present. There are, it is true, abundance of so-called Local Fund roads,—mere tracks for the most part, passable only in the cold season, knee-deep in dust in the hot season, quagmires in the monsoon,—unbridged and without culverts, of no sort of value as permanent feeders to a railway line. There are also one or two provincial roads, as they are facetiously termed—supposed to be first-class routes—but, culverts excepted, only a shade better than the Local Fund roads. In fact, a network of railway feeders has yet to be constructed. Government has recently wisely desired that all Local Fund Committees should frame a programme of works for seven years ; and we are glad to learn that, taking advantage of the opportunity, Mr. Crawford, the Commissioner of the Southern Division, has submitted to

MAJOR SPRING, R. A., has kindly given Rs. 100 to General Hewett as a prize to be shot for by the Bombay Volunteer Rifles. The terms of the competition have been left to Capt. Proudfoot, the Adjutant, and Capt. Tennent to arrange.

THERE were only three cases of cholera in Bombay last week, as compared to twelve the week before and to an average of six in the corresponding weeks of the last five years. At Kandeish, Sholapur, and Baroda also, where cholera was very prevalent a *month* ago, the disease appears to have quite died out; and from the Surat district and Kaira there are now very few cases reported. But in other parts of the Presidency, we regret to see, the disease still continues to cause many deaths. In the Satara district, for instance, there were reported during the last week 207 cases and 9 deaths; in the Ahmednagar district, 120 cases and 74 deaths; in the Kaladgi district (Sindgi taluka) 26 deaths; in the Belgaum district (Athni), 20 deaths. Cholera has appeared in several parts of Kathiawar—in Limdi, where 13 cases and 1 death were reported; Chuda, where one death occurred; and Gondal. With regard to Nasik, no figures are given, but it is reported that though cholera has subsided in places, it reappears in others. Fever appears to prevail in almost every part of the Presidency, as is commonly the case at this time of year, immediately after the rains.

WE are informed that another new mill is about to be erected in Bombay, to contain 40,000 spindles and 800 looms. The projectors are Messrs. Thackersey Mooljee and Muniundass Ramjee. The capital will be 12 lakhs, in 1,200 shares of Rs. 1,000 each. This mill is intended to spin the counts of yarn and to weave shirting, but the machinery will be also adapted to spin and weave the coarse yarns and cloth at present manufactured in [illegible] proportion as the capital has already been subscribed. The company will be named the "Indian Manufacturing Company," and the mills will be situated at Byculla, near the Hindustan Mills. The agents of the new mill will be Messrs. Dwarcdhur Thackersey Mooljee and Co.

H. E. LIEUTENANCY THE COMMANDER-IN-CHIEF will arrive at the Sewree bungler railway station at 2-30 p.m. (Madras time) to-day. His Excellency has been pleased to dispense with the guard of honour, and the attendance of the District Staff, officers commanding corps, and heads of departments. A salute of fifteen guns will be fired from the saluting battery at sunrise on the 29th instant to announce the arrival of His Excellency.

AT their meeting yesterday afternoon the Corporation considered the Town Council's resolution with reference to the application of the Oriental Telephone Company for permission to place telephone wires throughout the city. The Municipal Commissioner said he proposed to levy some small rental for the right of putting up wires, and to make such rental subject to revision after, say, five years, when it would be seen how the company worked and what their prospects were. He also thought that it should be stated in the agreement that no posts or wires should be put up in the streets without his permission, and that when brackets were fixed they should be fixed by the officers of the Municipality, and that full compensation should be given for any damage done. It was proposed by Mr. Nanabhoy Byramjee Jeejeebhoy "that, as recommended by the Town Council, the Municipal Commissioner be authorised to give permission to the Oriental Telephone Company to place telephone wires throughout the city; that the permission hold good for the term of ten years, and be granted subject to such conditions and to the payment of such rent by the company as the Municipal Commissioner, with the sanction of the Town Council, in the interests of the Municipality may, see fit to impose. Khan Bahadoor Muncherjee Cowasjee Murzban seconded the proposition. The chairman proposed "that the consideration of the Town Council's resolution No. 7842 of 1881 be postponed until the Corporation have perused the draft agreement which it is proposed to enter into with the Oriental Telephone Company, and that in the meantime the proposed agreement with the company be printed and circulated." Mr. Bhaishankar Nanabhoy seconded the proposition. Mr. Byramjee Jeejeebhoy withdrew the resolution which he had intended to put to the meeting in favour of the chairman's proposition. Mr. Kemp proposed as an amendment the proposition withdrawn by Mr. Nanabhoy Byramjee. The amendment, however, was lost, and the chairman's proposition carried by a large majority.

THE *Hindu Patriot* hears that the opinions of the local Governments on the Vernacular Press Act have been received, and that the Government of India are deliberating upon the subject. Possibly His Excellency the Viceroy will record his decision before he proceeds on his projected tour.

CAPTAIN W. E. HUTCHINSON, commanding the British India Steam Navigation Company's steamer Bhundara, has reported that the Crocodile Rock—lying off Muttum Point and about 16 miles west of Cape Comorin—is incorrectly placed on the published charts of that coast. The rock is reported as being distant nearly three-quarters of a mile S. S. W. of the position at present assigned to it. From it, Kotah islet bears N. 9½° W., and Adumda islet N. 33½° E. Mariners should navigate this part of the coast with extreme caution.

THE Bombay Presidency district season reports for the week ending the 19th instant sum up the position in the following general remarks:—Rain in Kaladgi; still required in Belgaum and Ahmednagar. Kharif crops generally good; sowing of rabi in progress. Cholera decreasing in Ahmednagar and Satara; fever and cattle-disease continue in some districts.

MAJOR-GENERAL SIR H. MACPHERSON, K.C.B., V.C., returned from leave of absence last Monday, and resumed command of the Allahabad Division and Station.

CAPTAIN DEERING, 2nd Battalion, the Cheshire Regiment, stationed at Allahabad, is compelled to resign the Adjutancy of the battalion owing to ill-health. He appears before a medical board and proceeds to England at once. Captain Wyley succeeds to the appointment thus vacant.

PROFESSOR MONIER WILLIAMS, C.I.E., it is stated, has secured, in Broad-street, Oxford, the land for the proposed Indian Institute.

REGARDING the letter of the Chief Secretary to the Bengal Government, which we reproduce elsewhere on the subject of Mr. O'Donnell's transfer from Jessore to Mymensingh, the *Indian Daily News* remarks:—"Mr. Cockerell's letter goes very fully, not only into the complaint against Mr. O'Donnell, but into that officer's general career. There are, however, two reasons why the matter should not yet be discussed. The first is, that the case is before the Government of India, and the second is, that Mr. Cockerell refers to a quantity of correspondence which is not yet available to the public."

A NOTICE appears in the *Bombay Government Gazette* to the effect that the attention of Government has been called to the fact that a practice obtains in certain districts of this Presidency of evading the stamp law by drawing hundis ostensibly payable at sight and affixing thereto a one-anna stamp, although the hundis are in reality not payable at sight, but after a certain number of days, indicated in the corner thereof. His Excellency the Governor in Council is therefore pleased to notify for general information that any person affording such information as will lead to the conviction of any person so offending will receive half of the fine imposed, unless the magistrate trying the case, for reasons recorded by him, thinks fit to withhold the reward.

THE following is the text of the Bombay Government's letter to the Government of India in reply to the letter on the subject of provincial finance recently sent to the different local Governments:—"In acknowledging receipt of the Resolution of the Government of India, Department of Finance and Commerce, No. 3,353 of 30th September, 1881, I am directed to say that the Right Hon'ble the Governor in Council cordially accepts the principles of the scheme of provincial finance therein set forth, and has taken steps to enable him to place before the Government of India at the earliest possible date such remarks on the details as it may appear to him necessary to consider before the new scheme comes into operation."

THE Calcutta papers publish in full the rules relating to the new post-office saving banks which are to be established throughout India, with the exception of the Madras and Bombay Presidencies. Very great precautions have been taken to prevent malpractices on the part of the subordinate post-office officials, in whose hands of necessity will lie the machinery for carrying out the scheme; no doubt, also, they will be subject to a very close supervision from head-quarters. The greatest advance of all is the transfer from the cutcherry to the post-office of the scene of operations and the great extension of agency thus rendered practicable. It will no longer be the fault of the Government if thrift is not promoted among the people as a whole. The post-office, as the *Englishman* remarks, is to be praised for a liberal measure. The scheme, in so far as it is concerned, must be unremunerative, for, though Government may be able to utilize the funds of the banks to its advantage, the department will derive no direct benefit from them. The institution of the scheme means for it simply a greater amount of labour and responsibility.

GENERAL COBBE, who is about to be relieved by General Hume of the command of the Lahore Division, and will then be able to go back to the charge of his own Division at Jubbulpore, has been knocked about from pillar to post a good deal during the last year. Since August, 1880, he has not spent one whole month at the head-quarters of his permanent command, having been kept continually on the move, officiating for absent Division Commanders at different stations. He was first directed to proceed to Allahabad to command the division, and on arrival found the European Infantry away in camp on account of cholera. After a couple of months, and when things had settled down into their normal condition, General Hume returned, and General Cobbe rejoined at Jubbulpore,—in October,—only, however, to be again sent back within a week to resume command of the *Allahabad Division in place of General* Hume, under orders for Kandahar, and then for Major-General Sir H. Macpherson, K.C.B., V.C., who had proceeded to England on leave. He was allowed to remain quiet till February this year, when, on the arrival of General Macpherson, he returned to Jubulpore, hoping to be allowed a little rest so as to make himself acquainted with his troops in his own command; but no such luck, for he was ordered off almost immediately to Lahore, where he still is. General Cobbe has obtained leave for three months to Dalhousie before he returns to Jubbulpore.

THE *Englishman* finds it was premature in stating that Capt. Grant had actually been appointed Director-General of the Indian Marine. Capt. Grant is not unlikely to receive the post, but the Secretary of State has come to no decision in the matter yet.

OWING to the setting in of the cold season in the tea districts, manufacture will soon close; and a Calcutta paper says, it is now estimated that the quantity available for export will not exceed 48,000,000 lbs.

WITH reference to the recent Purnea case, we (*Hindu Patriot*) have received a batch of papers, which clearly shew that, if anything, the Commissioner of Bhangulpore was opposed to the institution of the charge. He had also sanctioned to Raja Lelanund Sing his disapproval of the proceedings taken by him. The newspaper report of the case seemed to leave an impression on the public mind that it was the Commissioner who had pulled the strings from behind, but the facts laid before us fully exculpate Mr. Barlow. On the contrary it appears that that high functionary has always taken a most lively interest in the affairs of the Raj, which are unfortunately much involved, and has done his best to promote a reconciliation between the Raja and his son, who is now living on the best of terms. The papers laid before us disclose a state of things connected with the management of the Raj which we cannot too strongly deplore.

THE Calcutta correspondent of the Allahabad paper writes:—"*Apropos* of the mounted rifles, I hear that an exceeding great demand has suddenly sprung up for thoroughly trained and absolutely quiet "chargers," animals well accustomed to "standing fire" being also in strong demand. I wandered round Cook's stables on Sunday morning, and noticed a large number of useful and good-looking nags; for the pick of the latter, go to the loose boxes. Eight or nine fair hunters were sold at Saturday's sale, the pick of the lot, to my mind (but then I know but little about a horse), was No. 2, which was bought in at Rs. 850. One of the quads sold for Rs. 1,000. I quite agree with the authority who advises Calcutta people to take a stroll round Cook's stables on a Sunday morning, and I shall his me there again, before long, for many of the horses are well worth (for India) seeing, and so are some of the horses in Mr. Abdul Rahmon's stable at Bombay; but very long prices are asked for anything good.

A TELEGRAM from Fort Amiel, Natal, dated Oct. 6, states:—Reports have reached here that a serious rising has taken place in Zululand, in which it is believed that Oham is implicated. No particulars, however, have yet come to hand.

THE Italians are going in for enlarging their army. A telegram from Rome, Oct. 5, states:—According to the *Liberta*, the Minister of War, convinced that an army of 333,000 men of the First Line is insufficient for the defence requirements of Italy, has decided to bring forward a Bill on the re-opening of Parliament for the formation of two new army corps, which will give an augmentation of 90,000 men.

THE harvest in Manitoba, a telegram from Montreal states, is very abundant. The average yield of grain is extraordinarily high. The average of wheat per acre is twenty-eight bushels, or ten bushels, higher than the highest average ever reached in Minnesota, which is the best wheat-growing State.

CAN it be possible that we are really going to see a hunting season in Ireland without hunting? asks a London paper. It would seem likely. The Marquis of Waterford has already been actually compelled to quit the field with the Curraghmore hounds, and various branches of the Land League are passing resolutions calling upon the farmers not to allow any horses and hounds to cross their land. To be sure, this is only to endure until the political prisoners are released. "We swear to avenge them," says a hero in one of Moore's ballads, speaking of political prisoners of a somewhat earlier date; "the harp shall be silent, the maiden unwed," until, of course, the great end had been attained. This was self-denial; but, after all, were the silenced harps and the prolonged spinster days of the maiden when compared with the suppression of that sport in which every man, woman, and child in an Irish country district takes delight? This, too, under the authority of Mr. Parnell, who once taunted the English county members with their lack of true devotion to sport, and told them that if they wanted to see really straight riding they must go to the county he then represented, or to Kildare! This, too, at a time when there is talk of the Empress of Austria revisiting Meath to enjoy her favourite sport! One might have thought that ten thousand blackthorns would have been flourished by ten thousand arms to avenge even a look that threatened to interfere with the amusements of the Empress whose horsemanship witches Ireland. And, after all, the "enemy" does not suffer greatly, for we do not suppose Mr. Forster is much of a hunting man.

MUSIC AT THE APOLLO BUNDER.—The following programme of music will be played by the band of H. M.'s Marine Battalion at the Apollo Bunder this evening:—

March	Boccaccio ..... Suppé.
Overture	Oberon ..... Weber.
Valse	Flugschriften ..... Strauss.
Selection	Ernani ..... Verdi.
Valse	My Queen ..... Coote.
Mazurka	Gertrude ..... Heinsdorff.

GOD SAVE THE QUEEN.

FAIR.—A Khojah fair will be held to-morrow (Saturday) at Mahim, near the Mahim bazaar.

PRINCE'S DOCK.—The s. s. Helena, Borrowdale, and Geelong entered, and the Bretton Hall left, dock yesterday.

ACCIDENT AT THE PRINCE'S DOCK.—Bapoo Dorah, a ship's labourer employed in the Prince's Dock on board the s. s. Newnham, accidentally sustained a fracture of the left leg. He is under treatment at the Goculdas Tejpal Hospital.

KILLED BY A TIGER.—In the village of Cuncolim (Goa) a girl 9 years of age was snatched off her bed by a tiger at night, from the cottage where she was sleeping with her parents. The next morning only a hand and the head were found on a neighbouring hill.

ASSAULT.—Vallub Khanjee was yesterday convicted by Mr. C. P. Cooper of assaulting Kanjee Lalla with a stick on the night previous in the native town. He was fined Rs. 20, or in default to undergo six weeks' rigorous imprisonment.

HIGH COURT.—Mr. Justice Melvill and Mr. Justice West presided yesterday on the Appellate side of the court to dispose of emergent business during the vacation. Mr. Justice West sits in chambers on the 1st November to transact miscellaneous business on the Original side.

FALL FROM A WINDOW.—Ahmedbhoy, aged five years, the son of Mahomed Ali, a Borah residing at Bazaar-gate-street, Fort, on Wednesday evening last fell out of a window on the first storey of the house and sustained a fracture to his left thighbone.

THEFT AT MAHIM.—Soorkia Linga, residing at Dharany, Mahim, reported to the police on Wednesday last that his house was entered during the previous night by some person, and property, consisting of three silver images and a string of gold beads, of the collective value of Rs. 50, was stolen.

STATEMENT OF SILVER BALANCE IN THE MINT.—The value of silver in the Mint on the morning of the 17th October was Rs. 16,30,650. In addition silver received during the week, Rs. 24,810. New coin paid during the week, Rs. 13. The balance left was Rs. 16,55,447. There was, in addition, silver bullion valued at Rs. 17,358 belonging to private individuals deposited in the Mint vaults, and awaiting assay.

SUICIDE.—A coroner's inquest was held yesterday at Cowasjee Patel Tank-road, on the body of Cassee, woman, aged twenty-three years, who committed suicide by drowning herself in the Cowasjee Patel Tank. The deceased, it appears, was of unsound mind, and occasionally cried and talked incoherently. The verdict was that the death of the deceased was caused by her having committed suicide by drowning herself in a tank.

EXTENSIVE ROBBERY.—The shop of Poonja Ramoo, situated on Shaik Abdool Raymon-street, was found to have been broken into on Tuesday night last, the thief effecting an entrance by removing the iron bars of a back window. A box containing currency notes and cash, of the value of Rs. 880, a piece of silk valued at Rs. 15, and a hoondi for Rs. 19,133 were stolen. On the following morning the box was found on the Esplanade at the back of the Sir Jamsetjee Jijibhai Hospital, broken open and minus the currency notes and cash, but the piece of silk and the hoondi were left untouched.

THEFT AT MALABAR HILL.—Colonel White's butler reported to the police on Wednesday last that some person broke into his master's house, which is near the reservoir, Malabar Hill, on Tuesday night last. From a small box belonging to his master lying broken open in the compound, it is supposed that this jewel-case contained a silver bracelet and locket, but as Colonel White and family are at Mahableshwar, it has not been as yet possible to ascertain what other articles were. The jewel-case had been taken from an open tin box which contained bundles of spoons and forks and wearing apparel, and these other articles appear not to have been touched. The hamal who cleaned up the rooms on Tuesday last is in the custody of the police on suspicion.

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ending Tuesday, 25th October, was 448, being 4 less than in the previous week, 52 less than the week ending 26th October, 1880, and 29 less than the average of corresponding period in the preceding five years. During the week 321 births were reported in the different districts of the city. The rate of mortality during the week was proportionately 32·38. There were 77 deaths from remittent fever, being 22 less than the previous week, and 19 less than in the same period last year. The deaths from diseases of the nervous and respiratory system during the week were last week 35, 19, and 13 respectively, as compared with 39, 20, and 22 last year. There were 3 deaths from cholera last week, as compared with 11 in the week previous.

GOVERNMENT TEACHERS AND PRIVATE TUITION.—With the sanction of Government, Mr. Chatfield, the Director of Public Instruction in Bombay, has issued a circular to all Government educational officers and teachers directing them not to engage in giving private tuition to any of the students of their own or other schools, and intimating that dismissal from Government service would be the punishment for disobedience of this order. A somewhat similar order was, it is said, issued three or four years ago when Colonel Waddington was Inspector for the Central Division. Last year, also, Mr. Giles, the Inspector for the Northern Division, is said to have prohibited all teachers in Government schools in his division from engaging in private tuition. Mr. Chatfield's order applies to teachers in Government employ throughout the Bombay Presidency.

THE POONA CANTONMENT MAGISTRACY.—We are sorry to learn that Colonel T. C. Britten, our Cantonment Magistrate, has been compelled to apply for leave, and that the Adjutant-General considering there was no objection, the application has been forwarded to His Excellency the Commander-in-Chief. We are not told the nature of the leave applied for by Colonel Britten, but it is rumoured that it is for a furlough to England.—*Deccan Herald.*

BOMBAY MUNICIPAL CORPORATION.

A QUARTERLY meeting of the Corporation was held yesterday afternoon, Dr. Thomas Blaney presiding. There were also present Messrs. James Bapty, E. B. Carroll, Surgeon-Major T. Cody, Dr. P. C. De Souza, Mr. Edwin Richard Freeborn, Col. H. F. Hancock, Messrs. H. E. Jacomb, W. M. Macaulay, D. S. Kemp, Major G. L. C. Merewether, Major A. B. Portman, Messrs. Atmaram Pandurung, Bhaishankar Nanabhoy, Byramjee Nusserwanjee Serum, Dr. Cowasjee Hormusjee, Messrs. Fazulbhoy Visram, Gokuldas Jugmohundas, Hormusjee Nowrojee Sakiatwalla, Javerilal Umiashankar, Muljee Bhowanidas, Khan Bahadoor Muncherjee Cowasjee Murzban, Messrs. N. Byramjee Jeejeebhoy, Nowrojee Byramjee Suntook, Raghoonath Narayen Khote, Tribhowandas Mungaldas, Vandrawandas Purshotumdas, and Venayekrao Ramchunder Luxumonjee.

THE TELEPHONE CONCESSION.

The chairman invited the Municipal Commissioner to give some explanation as to the course which he suggested they should follow in regard to the Oriental Telephone Company's letter dated the 14th instant, recommending the Corporation to authorize the Municipal Commissioner to give permission to the Oriental Telephone Company to place telephone wires throughout the city; such permission to hold good for the term of ten years.

The Municipal Commissioner stated that some time ago it was proposed that telephonic communication should be established throughout the city, and he found a plan in course of preparation by the Government Telegraph Department for carrying out this object. Just about the same time the agent for the Oriental Telephone Company went to him and told him the authority they were also willing to start in Bombay if they got a license from the Government of India. They had now got this license; and the question was, whether they should be allowed to put wires, &c., along the streets. It seemed to him that though he might come to an arrangement with the company, it would be better that he should apply to the Corporation to give him the authority to accord the necessary permission. The Oriental Telephone Company had to pay a royalty to Government under the Indian Telegraph Act; and he understood that the Chamber of Commerce, merchants, and others were most anxious that every facility should be given for working telephones in the city. He had discussed the matter with the agent of the company, and if the Corporation would leave the matter in his hands, subject to any conditions they might impose, he did not think they would have any reason to be dissatisfied with the result. He proposed to levy some small rental for the right of putting up wires, and to make such rental subject to revision after five years, say, when they saw how the company worked and what their prospects were. He had a draft agreement in his hand, the general terms of which were that no posts or wires were to be put up in any streets without his permission being first obtained, that when brackets were to be fixed they were to be fixed by their own officers; full compensation for damage done; and, as he said before, some small rental based upon each quarter mile; and, to secure these conditions being observed, a deposit to be paid into the municipal treasury.

Mr. Nanabhoy Byramjee Jeejeebhoy proposed the following resolution:—

"That, as recommended by the Town Council, the Municipal Commissioner be authorized to give permission to the Oriental Telephone Company to place telephone wires throughout the city; that the permission shall hold good for the term of ten years, and be granted subject to such conditions and to the payment of such rent by the company as the Municipal Commissioner, with the sanction of the Town Council, in the interest of the Municipality, may see fit to impose."

Khan Bahadoor Muncherjee Cowasjee Murzban seconded the proposition.

The Municipal Commissioner, in reply to some remarks made by Mr. Jacomb, said that, as far as he was concerned, no exclusive permission had been given to the Oriental Telephone Company to lay down wires.

Mr. Carroll said that a number of wires laid in the streets would present an unsightly appearance, and he thought, therefore, that in some cases it would be necessary for the Municipality to lay the wires underground.

The chairman said that in every public contract of this kind requiring the sanction of the Corporation, it had been the custom to lay upon the table, or rather to circulate among the members, the terms under which the contract had to be sanctioned. It would be remembered that such a course was adopted in the case of the Bombay Tramway Company. Even if some time should elapse before they should arrive at a resolution on the subject, the chairman thought it would be better for them at first to see what the terms were. With these remarks, the chairman proposed "that the consideration of the Town Council's resolution No. 7842 of 1881 be postponed until the Corporation have perused the draft agreement which it is proposed to enter into with the Oriental Telephone Company, and that in the meantime the proposed agreement with the company be printed and circulated." Mr. Bhaishankar Nanabhoy seconded the proposition.

Mr. Byramjee Jeejeebhoy withdrew the resolution which he had intended to put to the meeting in favour of the chairman's proposition.

Mr. Kemp proposed as an amendment the proposition withdrawn by Mr. Nanabhoy Byramjee. The amendment, however, was lost, and the chairman's proposition carried by a large majority.

THE MALABAR HILL RESERVOIR.

Mr. N. Byramjee Jeejeebhoy proposed that, as recommended by the Town Council in their resolution dated the 14th instant, the Corporation should sanction the payment from time to time from surplus cash balance of such advances, not exceeding the total estimate of Rs. 3,97,360, sanctioned by the Corporation on the 10th instant, as may be necessary in order to enable the Municipal Commissioner to proceed with the covering of the Malabar Hill reservoir forthwith; it being understood that the said advances are to be repaid from such loan as may hereafter be raised by the Corporation.

Khan Bahadoor Muncherjee Cowasjee Murzban seconded the proposition.

The chairman said that Mr. Jacomb was going to propose an amendment which was placed in his hands last night. On considering it he found that it went against one of the sections relating to the rules of procedure adopted by the Corporation, which was to the effect that no motion should be entertained with regard to a question once disposed of until after an interval of three months from the day of such disposal. Under this rule, the chairman thought, Mr. Jacomb's amendment could not be put, as it appeared, on the face of it, to be similar to the one disposed of by the Corporation only a few days ago. The amendment, in its present form, was simply a variation of words; but in its spirit it recommended the Corporation to undo what it did the other day, namely, the sanction of Rs. 3,97,360 to proceed with the covering of the Malabar Hill reservoir.

Mr. Jacomb asked what would be the effect if the Government refused to sanction a loan for the purpose. It struck him that the refusal would open the whole question again, as he thought the Corporation had come to a resolution on the understanding that the Government would sanction the raising of the money required for the work.

The Municipal Commissioner said that if the work was to be proceeded with, he was very desirous that it should be begun at once. It was necessary for the Corporation, therefore, to make an advance. If the Government did not sanction the raising of a loan, it was a question whether the Corporation should supply the money from its current revenue, and to what extent.

Mr. Bhaishankar, referring to Mr. Jacomb's amendment, said that it was in order, and might be put to the meeting.

Dr. Cowasjee Hormusjee said the amendment was in effect intended to rescind the resolution of the Corporation to spend Rs. 3,97,000 to roof the Malabar Hill reservoir. By the amendment they were to spend a less amount.

Col. Hancock proposed that an advance not exceeding Rs. 1,50,000 be made to the Municipal Commissioner from surplus cash balance to proceed with work at the Malabar Hill reservoir sanctioned by the Municipal Corporation by their resolution dated the 10th instant, pending arrangements being made for the necessary loan for that work. He said that his proposition would not go to rescind any resolution already passed by the Corporation; and he was informed that the sum of a lakh and a half would be sufficient to enable the Commissioner to proceed with the work.

Major Portman seconded the amendment

Mr. Khote said it was very desirable that the sum should be advanced to the Commissioner to enable him to proceed with the work which the Corporation had resolved to construct. The work must not be allowed to remain undone until the next monsoon, but must be pushed on at once.

The chairman said that Mr. Jacomb's amendment was out of order so long as it sought to upset the previous resolution of the Corporation. But if it was a mere matter of the expenditure of funds out of the surplus cash balance, it was in order.

Mr. Jacomb having explained that his amendment only related to an expenditure of funds out of the surplus cash balance, on the understanding that the advances were to be repaid from such loan as might hereafter be raised by the Corporation, the chairman ruled that the amendment was in order.

Eventually Col. Hancock's amendment was put and carried.

PURCHASE OF A WATER-MAIN.

It was proposed by Mr. Javerilal Umiashankar that the consideration of the proposed expenditure of a sum not exceeding Rs. 20,000, for the purchase from the Port Trust of the water main running through the Frere-road and other parts of the Port Trust estate, payment for the same being provided for by addressing the Government in the form of a petition, and of ignoring his superiors, the Chairman, and the Commissioner of the Division; and his petition has accordingly been submitted under cover of a letter in the proper manner; but the position which he claims for himself in that petition entirely bears out your impression of Mr. O'Donnell's disloyal conduct to his immediate superiors and his erroneous view of his position contained in paragraphs 6, 7, 8, and 9 of your letter of the 7th August last.

5. It is not necessary to discuss in detail all the instances of neglect, abuse of authority, or want of judgment, alleged against Mr. O'Donnell. They have been fully and calmly stated in the reports received, in which every possible consideration has been shown to him.

6. The Lieutenant-Governor has read very carefully these reports and Mr. O'Donnell's explanations, and he is quite satisfied that Mr. O'Donnell has shown by his conduct at Jessore that he is either unable or unwilling to perform properly the important and responsible duties of a Joint-Magistrate. He certainly does not, the Lieutenant-Governor considers, possess the qualifications and the business habits which Government servants should exhibit in the officers who have for some years been trained in its service with a view to their filling important executive or judicial offices. Mr. O'Donnell takes up his own and the public time by maintaining absurd theories regarding his duties, and his position in certain of the offices he holds in virtue of his appointment as Joint-Magistrate. He is habitually disloyal to the officer to whom he is immediately subordinate, and there is too much reason to believe that he has been in the habit of encouraging intrigues against his authority; he is proved to have shown a want of ordinary discretion, and to have taken advantage of his position while in temporary charge of the Magistrate's office during the absence of his superior in the interior of the district, to assume powers which were beyond his competence, when he assured the Commissioner that there was no truth whatever in complaints of oppression by the ryots of Chanchal against the manager of their estate, whom Mr. O'Donnell was then living; and he distinctly and persistently disobeyed, in another instance, the most explicit orders of the Magistrate as to the manner in which correspondence was to be dealt with by him during the Magistrate's absence on tour. As a Magistrate his decisions and procedure have raised doubts whether he is yet fit to be trusted with important judicial powers. It is clearly shown that he has been in the habit of summarily dismissing complaints on altogether insufficient grounds, and after a very inadequate examination of the complainant, and that in consequence many persons have been deprived of the remedy which they had a right to expect at the hands of the Magistrate of the district. He has introduced a form of procedure in dealing with criminal cases which is altogether irregular and illegal. Instead of deciding on the complaint and the examination of the complainant whether processes shall or shall not issue, he calls upon the accused to file an explanation. As pointed out by you the adoption of such a procedure apart from its illegality, is grossly unfair to complainants who in many cases find their complaints made in open court rejected in favour of explanations made informally by the accused. It is further shown that Mr. O'Donnell has in many cases most unwarrantably stretched the powers with which he has been vested of trying cases under a summary procedure. It may be that he has done this to avoid having his cases heard on appeal; it is not only as you suggest on his behalf, that it was only from an idle desire to save himself from trouble. Whatever the motive may have been, the wrong done to the public by the adoption of such a procedure by an officer who has so abused these powers from motives of and kind cannot be allowed to continue to exercise them, and the Lieutenant-Governor therefore directs that they be withdrawn from Mr. O'Donnell. It is not only the Commissioner and the Magistrate who condemn Mr. O'Donnell's work as a judicial officer, for the Lieutenant-Governor finds that the Officiating Judge, Mr. Paterson, reports as to the results of appeals against Mr. O'Donnell's decisions that "these cases show either that the Joint-Magistrate does not know his duties as a committing officer, or that knowing them he does not take the trouble to perform them."

7. There remains another and a very serious charge against Mr. O'Donnell, and that is the use of insubordinate and unbecoming language towards his superior officers in submitting the explanation called for as to his conduct. No doubt Mr. O'Donnell wrote under feelings of irritation at having his conduct called into question, but it was the plain and positive duty of Mr. Barton to bring to the notice of Government the very unsatisfactory manner in which he was performing his duties, and the Lieutenant-Governor will not permit any young officer in a subordinate position to use language such as that which Mr. O'Donnell has permitted himself to make use of on this occasion, whenever his superior may consider it necessary to criticise his official conduct. If this were Mr. O'Donnell's first offence of this sort, the Lieutenant-Governor would be ready to make every allowance for him; it is not, however, his first offence, he has shown himself throughout his service to be thoroughly insubordinate, and he has habitually set at defiance all rules of discipline; and the Lieutenant-Governor has lately been compelled to bring Mr. O'Donnell's conduct in this respect to the notice of the Government of India. The records of this Government show that during the few years that this young officer has been in the service, his conduct has been brought unfavourably under the notice of Government more frequently than that of any other public servant of his standing. In 1877 Mr. O'Donnell was degraded for a period of six months for gross insubordination and disrespectful language, on the representation of the Hon'ble Judge of the High Court, and his proceedings as a judicial officer were then described as having been "hasty, injudicious, arbitrary, and unjust." In 1879, Mr. O'Donnell had to be transferred from Sewan for mal-administration, soon after which he went to England on leave, and while there occupied his time in writing a most insubordinate pamphlet, grossly libelling the acting Lieutenant-Governor, Sir Steuart Bayley, who had criticised unfavourably Mr. O'Donnell's work.

9. On Mr. O'Donnell's return from Europe in 1881, Sir Ashley Eden determined to give him another chance, and promoted him to officiate as Joint-Magistrate of Jessore. He has there shown the same want of all the qualifications necessary for the proper discharge of his judicial duties, the same want of tact, the same self-sufficiency and impracticable reliance on his own superior judgment in matters regarding which he could have very little experience, the same petulance and impatience of control, and the same spirit of insubordination and neglect of discipline that he has shown throughout his service. It is clear, therefore, that he is not amenable to mere censure, and that forbearance only leads him on to greater neglect of duty, and of all the rules of the service to which he belongs; and the Lieutenant-Governor cannot, therefore, allow him to act any longer in the superior grade of Joint-Magistrates to which he was temporarily promoted or to perform the duties of a Joint-Magistrate. Mr. O'Donnell is clearly not to be trusted to take charge of the office of the Magistrate and Collector during the absence in the district of his superior officer, this being one of the chief duties of a Joint-Magistrate. He pertains to the service from which the hides were so despatched, but from the head office of Messrs. Chas. Dutton & Co., at Agra. These invoices now, it is alleged by the prosecution to show, therefore, that A. M. Bretton abetted the offence of cheating committed by the other prisoners it was necessary to prove that he conspired with which included the amounts shown in the separate invoices, the cost of establishments, and other items which under the agreement were debitable to Messrs. Schroeder, Schmidt & Co. Messrs. Chas. Dutton & Co. were allowed in their remuneration a commission of two and-a-half per cent. on all purchases. On receipt of the invoices and subsequent monthly accounts current, Messrs Schroeder, Schmidt & Co. gave Messrs. Dutton & Co. credit for the amounts shown therein when checked and found correct.

The offence of cheating was charged in respect of three consignments, this being the largest number of offences of the same class for which the prisoners could be tried at a single trial. The first of these three consignments was made in January 1880, from Dinapore, and the cheating is said to have consisted in one or both of the following items, viz., either that the learned Judge very carefully dissected the evidence, against each of the prisoners, and particularly explained to them the several acts which had been proved against them by Mr. A. M. Bretton, tending to show that he had been a consenting party to the perpetration of the offence. There was ample evidence, we think, upon which the jury might have found that the offence was committed by the common consent of the three prisoners; or in other words, that they had conspired to commit it, and we see nothing in the summing up of the learned Judge of which any of the prisoners have a right to complain, or which was calcul

CURE OF RHEUMATISM AND SCORBUTIC ERUPTION.

The Elms, North Cheam, Surrey, S., 4th March 1875.
"SIR,—I had been suffering from rheumatism for several years, together with scorbutic eruption of the skin, of a local nature, about the size of the palm of the hand, and was induced to try your Blood Mixture in consequence of a gentlemen in my neighbourhood having been cured of a obstinate sore on the body. After taking two bottles I became much better, and continued it up to the tenth bottle, when I found the rheumatism had left me, and my arm was healed. I consider it a most valuable medicine.
"You are at liberty to use this letter in any way you think proper, for the benefit of others.
"Faithfully yours.
